Sponsored By: Blackloveadvice.com So youve met your Prince Charming, and you feel like nothing and no one could ever come between you. You wake up each morning and your first thought is him. You have cute pet names like sweetheart, babe, hun or sweetie pie and you feel butterflies each time you see him. Youre thinking of moving in together and half of your stuff is already lying in your sweethearts closets But lets jump off cloud nine and jump back into reality for a second... The truth of the matter is many women waste their time with men that they just arent compatible with and the complications of a break-up can oftentimes be earth shattering. So many nasty break ups and divorces can simply be avoided if these people knew more about their partners and knew the right questions to ask before they got married, had children, and lumped their finances together. There are millions of children in America alone that come from broken homes because after the butterflies in their parents stomachs disappeared they realized they didnt have much in common and just werent compatible. The effects of a nasty divorce or break up can be simply devastating not only to children but also to the adults involved, lets face it, its hard to fix things and get back on the right track after you build your life around a failed relationship. We strongly suggest that before you walk down that aisle together, have children or even share the same living space with your boyfriend that you sit down with him and ask each other the questions in this book. This book will give you a glimpse into the future of you and your mans relationship. Guaranteed after you finish reading this your future together will be clear. Dont hesitate! This guide is only \$2.99, that is a very small amount compared to all the things you stand to lose by not knowing the information in this book.
