

Child of Sorrow

Seventeen-year-old Vicki Bayle, the pretty only child of Frank and Rena Bayle, has big plans to be the first in her extended family to go to college. She graduates fifth in the class of 1959 at Clewiston High School, scores a couple of scholarships from local civic clubs, and breaks up with her steady boyfriend, who is the same age as she but still has a year to go in high school. And then she misses her first period. Abortion is not an option for girls in Vicki's situation in 1959, so her parents drive her 300 miles away to a Jacksonville home for unwed mothers and leave her there frightened and among strangers. A cruel and authoritative housemother at the Safe Haven Home for Unwed Mothers is determined to break Vicki's spirit, which makes her five months away from home even more difficult. There is no way for Vicki's parents to know how dismal conditions are at the home. The residents are always hungry. They are not allowed to eat anything except food provided by the home, and they are punished for any real or imagined defiance of the housemother's will. Vicki does not tell her parents; she knows they are suffering hardships as well. The cover story is that Vicki is enrolled in a cosmetology school and working nights and weekends to help pay her way. Rena Bayle writes her daughter regularly but will not allow her to call home, for fear that someone might overhear their conversation on the family's party line and figure out the truth. At Safe Haven, social workers assure Vicki that she is doing the right thing for her baby—the noble thing. If she gives up her baby, he will go to a loving home with parents who want a baby but can't have one. The residents of Safe Haven range from a 12-year-old pregnant child to a 44-year-old woman. Each one has a compelling and memorable story. The only bright spot for Vicki in the first few weeks is Becky, a 20-year-old former nursing student who is spunky and funny

and irreverent. Becky is always plotting ways to filch food from the homes kitchen, and is not above giving the finger to people who stare at the girls as they walk to the free clinic for checkups. Then Becky delivers her baby and is gone in the night. Vicki never sees her again. When Vicki goes into labor, she is put in a cab and sent to the hospital alone. It is a terrifying experience. After her son is born, Vicki fights for the right to see him. As soon as he is placed in her arms for the first time, she decides she cannot possibly give him up. When she calls home to beg her mother to allow her to keep him, her mother says, For once in your life, Victoria, you have to think about someone other than yourself. And so she does. Forty years later, Vicki gets a phone call from Jacksonville that changes her life forever. Child of Sorrow is based on a true story. Few people know what it is like to surrender a baby for adoption. Those who do are affected by the experience for the rest of their lives.
