

The Magi of Futurity - A Story for the Seeker in Each of Us

The Magi of Futurity is a story told in two parts. The first part introduces a 14-year-old girl named Anita who is growing up in a rural setting during the depression era. By repeating a simple prayer, Anita opens a line of communication (while in the dream state) to a future aspect of her soul group who is studying to become a Dream Doctor. For two magical weeks in December 1932, Anitas consciousness is expanded to help her learn the secrets to living a happy life. The second part of the story reintroduces Anita as a 33-year-old woman just coming out of a divorce, who once again is seeking the elusive state of happiness. Anitas future aspect returns again to help her through this painful stage of her life. This time, Anita is able to open a conscious channel of communication with her spiritual counterpart. The Magi of Futurity is a simple, sweet story that answers some of the basic questions all seekers of happiness are hoping to find.
