

## Hexen2.0 Tarot Deck

The HEXEN 2.0 Tarot features 78 alchemical drawings depicting interconnected histories of the computer and the Internet, cybernetics and the counterculture, science-fiction and scientific projections of the future, government and military research programs, social engineering and ideas of the control society; alongside diverse philosophical, literary and political responses to the advance of technology including the claims of anarchoprimitivism, technogaianism, and transhumanism. Through representing and re-examining these subjects and histories through the lens of occult belief systems and ideas of the supernatural, the HEXEN 2.0 Tarot takes us to a hypnotic, mesmerizing space from where one may imagine and construct possible alternative futures. Acknowledging precedents such as the traditional tarot deck, The Rider-Waite Tarot Deck and Aleister Crowley's Thoth Tarot Deck, Suzanne Treister has here produced a new Tarot, that allows a reader, or a group of readers working collaboratively, to use the cards to reconfigure history and/or map out hypothetical future narratives.
